

Honorable housing committee:

This is Lin Yang from Woodbridge Connecticut. I am writing to oppose Raised bill 5212: THE SALE OF BATTERY-POWERED SMOKE DETECTORS IN THE STATE

Battery powered smoke detectors have been THE essential safety measure that is wildly used. The purpose and the objective of the current proposed bill are bewildering. Until there is a realistic and non-cost-prohibiting alternative available in market, further explanation beyond the battery powered smoke detector is not 100% fool prove is needed.

I therefore respectfully ask you to withhold this bill for this legislative year.

Regards

Lin Yang
